### Please select one of the following:

***TeleCheck Electronic Check Acceptance® (ECA®) Warranty*** service gives merchants an increased level of protection and an efficient option for accepting checks at the point-of-sale. And with the Warranty service, returned check processing and collections will be managed by TeleCheck. The service converts a paper check into an electronic transaction at the point-of-sale. The Automated Clearing House (ACH) network is used to process the transaction and fund your account generally within two business days. Plus, if a check is returned, TeleCheck manages the entire collections process giving you more time to focus on your customer. This service requires the use of the FD200 Terminal. All processed checks will be charged a fee of 0.85% with no monthly minimum.

***TeleCheck® Paper Check Warranty*** service allows merchants to process checks at the merchant's own point-of-sale terminal using TeleCheck's proprietary risk management tools. And with the Warranty service, returned check collections will be managed by TeleCheck. All processed checks will be charged a fee of 0.5% with no monthly minimum.
